Research for Bilingual Stroke Survivors

Are you a Spanish-English bilingual who has suffered from a stroke?

Participate in a word association study at
San Francisco State University

✦ *You may be eligible if you have suffered a stroke or TBI.*

The purpose of the study: Improve our knowledge of how bilingual people with strokes access words.

The study: you will receive a speech and language evaluation by licensed speech therapist or trained student clinician, fill out a language questionnaire and look at words and shapes on a computer. We offer compensation for your time.

PLEASE CALL 415 405-3488 or email graymatterlaboratory@gmail.com if you are interested or know someone who might be interested.
