Research & Services → Monolingual and Bilingual Stroke Survivors

- We are looking at how people with aphasia learn words and improve the ability to speak!

Recruitment:

- Are you monolingual or bilingual (balanced or unbalanced)?
- Do you have aphasia?
- Are you between the ages of 18-90 years?

You may be eligible to participate!

- You will receive a free speech and language evaluation.
- You will receive between 10-20 weeks of free language therapy.
- Language therapy is delivered via teleconferencing (e.g., Zoom)
 - The Gray Matter Lab uses a secure version of teleconferencing that increases patient privacy
- There is no cost to participate in this study.

Protocol # X21-024 Approved: 05/13/2021 Expired: 05/2/2023
